REGIONAL FEEDER SERVICE

ACM charts and operates a fleet of barges, tugs and vessels of various sizes and capacities to enable the movement of cargo by sea through Eastern and Southern Africa as well as the Middle East.

We provide global freight forwarding services for project cargo. We specialize in heavy lift and out-of-gauge cargo movement for infrastructure development projects, oil and gas projects, and marine services.

Over the past decade, we have built up a solid presence in markets across East, Central and South Africa. This regional reach makes us the forwarding partner of choice for multinational companies, seeking a simplified, consistent and quality logistics services capability for their global operations.

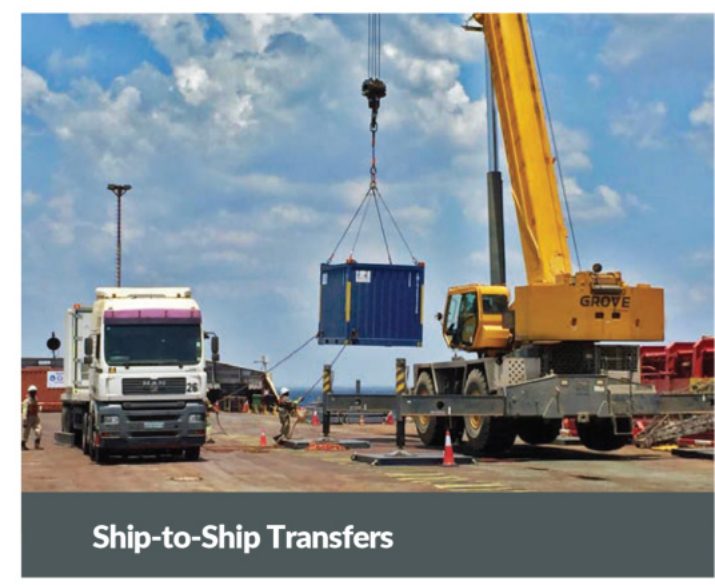

In support of Mozambique, ACM is committed to granting a tailored and flexible Vessel Operation service calling on regional ports - Mombasa / Durban to Nacala / Pemba / Mocimboa Da Praia

We specialize in:

- Dry and reefer containers,
- Military vehicles,
- Heavy RO-RO equipment,
- Loose cargo requiring special handling
- Transit cargo
- Transshipment cargo
