FREIGHT FORWARDING

CLEARING & FORWARDING SERVICES

Our extensive experience, innovative and responsible approach allows us to find the best solution for the successful implementation of your project.

Our dedicated project managers ensure proper management and planning, precision forecasting, inventory management, transportation, loading and unloading, customs clearing, cargo insurance and storage supervision in order to deliver the projects safely, on time and within the budget.

IMPORTS & EXPORTS

Our team has a global reach, with local expertise, providing unparalleled insight and experience to help our customers mitigate any foreseeable supply chain interruptions.

SSSL works closely with government agencies to ensure adherence to the strict standards and regulations set forth to move your cargo in an expeditious manner.

Our service ranges from origin freight forwarding to Custom House Brokerage, regional transportation and last mile delivery through a dedicated trained project logistics team. We always get your product where it needs to go, and you will be able to monitor progress, every mile of the way.

PROJECT LOGISTICS

Heavy-lift, out of gauge cargo moves and marine services require specialized transportation services, which can often be complex for shippers with today's ever-evolving global and regional regulations. Our services include:

- Route and bridge surveys
- Customs clearance
- Regulatory Compliance
- Logistics plans and site surveys
- Heavy-lift and oversize cargoes
- Road, sea and air transport including partial & full charters
- Warehousing and staging facilities

THIRD-PARTY COLD LOGISTICS (3PL)

REFRIGERATED TRANSPORT

Whether your requirement is to move 3 km or 3,000 km, less-than-truckload (LTL) or truckload (TL), domestic or cross border, we have you covered.

Our food safety policies and logistics professionals assures the cold-chain integrity, quality and freshness of your product. SSSL's transport management system gives you total visibility every step of the way.

- Truckload transportation
- Less-than-truckload transportation
- Dedicated contract carriage
- Less-than-truckload intermodal transportation
- Direct-to-store delivery (DSD)

MULTI-TEMPERATURE & MULTI-COMMODITY WAREHOUSING

Regional Footprint

Uganda	Entebbe	1,000
Rwanda	Kigali	600 + (1,600 W.I.P)
Mozambique	Pemba	444
	Nampula	444

DISTRIBUTION SERVICES

As a specialized distributor of frozen and temperature sensitive food products, we deliver a wide range of distribution benefits to clients that allow them to:

- Integrate distribution with the field sales force and customer service teams
- Improve inventory planning and replenishment
- Reduce out-of-stock through increased delivery frequency
- Reduce logistics costs/variance of distribution costs
- Increase supply chain stability
- Streamline the supply chain process with integrated technology
- Enhance order/customer/store management

EQUIPMENT RENTAL

REEFER CONTAINER RENTALS

We rent 20ft and 40ft reefer containers out to businesses and individuals around the East African Region and offer a number of different container lease agreements from short-term plans to long-term ones.

We also offer a number of delivery options for your container and deliver to most places in the world, or if you wish, you can even pick it up from the depot yourself.

Our rental fleet consists only of units that are always in good condition and continuously tested for a hassle-free rental experience. All models are ISO standard containers which are also suitable for international transportation.

CLIP-ON AND UNDER MOUNTS GENSET RENTALS

Generators (Gensets) are used for powering refrigerated containers either on the ground or in transit.

SSSL owns 150 units, all available for long and short time hire regionally. These include both Clip-on Gensets, which fit on the front of the container, and Undermount Gensets, which are mounted under the trailer chassis.

Gensets can also be used as a free standing power source when reefers are used for temporary or semi-permanent storage, as well as to meet other compatible electrical needs.

REEFER DEPOT SERVICES

REEFER DEPOT MANAGEMENT

Reefer containers are an integral part of a complete Cold Supply Chain. SSSL owns and operates the largest reefer service center in the East African region that offers both Hardware and Software solutions. With a total area of 30,000 SQM in Mombasa, we can handle and store over 2500 TEUs.

Our certified MHEs and over 180 power plugging points, can support all your PTIs (Pre-trip inspections) plus reefer plugging requirements on a 24/7 basis. Our other core services include:

- Reefer Services – Handling, Storage, PTIs, Plugin Services
- Pre-Cooling & Testing requirements
- Reefer Monitoring & Software upgrading
- Provision of Clip-on & Undermount gensets
- Remedial works – Software & Hardware
- Reefer Structural & Body Repair Works

REEFER / GENSET REPAIR & MAINTENANCE

Offered by well trained, certified and experienced staff equipped with high quality spare parts, accessories and equipment.

Our value-added services and inspections will help you maintain operational efficiencies. We also offer checks for:

- Electrical components
- Refrigerator oil levels
- Freon levels
- Software upgrading
